

## Cybersecurity & Compliance Solutions

In response to ever-increasing customer needs, Trifecta has partnered with Abacode, a leading cybersecurity and compliance company, to offer a trusted, vetted solution to your cybersecurity, monitoring and remediation needs.

*Transforming Cybersecurity & Compliance™*

## Who is Abacode?

**Professional Services** - Our delivery team is second-to-none in performing comprehensive vulnerability assessments and penetration tests for network, web application, social engineering and facility security.

**MDR** - Our 24-hour Security Operations Center (SOC) is staffed with expert analysts trained to detect and respond to threats utilizing all major SIEM/MDR solutions.

## Why Abacode?

### GLOBAL | CUSTOMER-CENTRIC | HIGH-QUALITY PROFESSIONALS

Abacode is an industry-recognized MSSP, experienced in providing holistic cybersecurity and compliance services to customers throughout the Americas, Europe and the United Kingdom. With current clients in over 10 countries, our visibility into global threats adds incredible insight and value to our customers.

Abacode has been recognized as one of the fastest-growing MSSPs by empowering companies to have a Cyber Capability Maturity Model (CCMM), and consolidate all cyber-risk and regulatory compliance initiatives under one roof.

## Governance, Risk & Compliance

Preparing for cybersecurity compliance audits and certifications can be a formidable task for any organization. Abacode provides unparalleled Security & Compliance Program Implementation services to companies of all sizes. Our professionals give your organization peace of mind and serve as your compliance advocate, from understanding the driving needs to reaching compliance or certification.

HIPAA | FEDRAMP | PCI DSS | NIST | GDPR

# Managed Threat Detection & Response

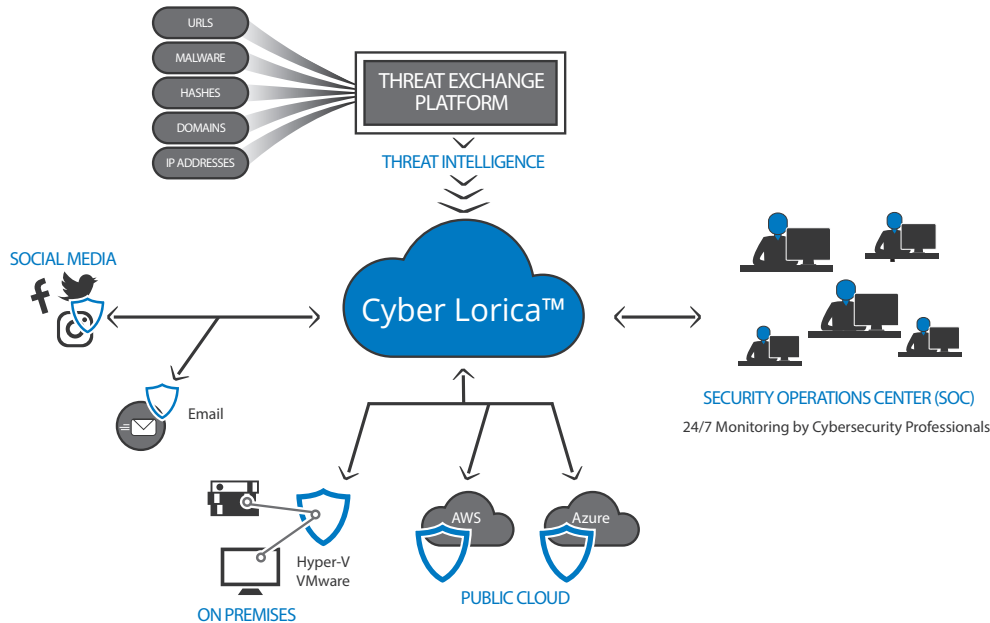

## CYBER LORICA™

Abacode's product-agnostic solution, Cyber Lorica™, is a subscription-based managed Security Information and Event Management (SIEM) / Artificial Intelligence (AI) service. We work with industry-leading products to determine the best solutions to meet the specific security needs of your

business. We identify vulnerabilities and detect high-risk behavior to mitigate breaches. We offer multiple deployment options, including cloud-based, physical appliance and virtual appliance to accommodate all architectures.

### Example Cyber Lorica™ Implementation for a Hybrid Environment (Cloud & On-Premises)

## VIRTUAL SOC SERVICES (VSOC)

Abacode's Security Operations Team is comprised of formally educated cybersecurity professionals that are highly trained to continuously monitor the security of your systems and data. Our Tier I, II, and III analysts follow the escalation process

from identifying new vulnerabilities to taking the proper actions to stop cyber-attacks. Abacode has experience using multiple SIEM and AI Threat Detection solutions to meet your organization's specific needs.
