

**COMPREHENSIVE ITAD SOLUTIONS**

**Equipment Removal**

Schedule hassle-free pickup and secure transport of your decommissioned IT hardware across North America, with fast turnaround and the option to self-pack or utilize our full packing service.

**Data Security**

Protect your organization from data breaches with fully documented data destruction, including certified logical wiping that meets US DoD 5520.22-M standards.

**Equipment Valuation**

As a leader in the pre-owned market, no one is better positioned to maximize value for you. Receive top dollar for your decommissioned IT hardware with cash or credit options.

**Inventory Tracking**

Maintain full oversight of your IT hardware with complete tracking and fully transparent reporting provided through every step of processing.

**Hazardous Material Handling**

Safely and securely dispose of hazardous e-waste while fully complying with all regulatory and environmental standards.

**WE MAKE IT EASY TO SECURELY RECYCLE YOUR DECOMMISSIONED HARDWARE**

**Pickup & Transport**

We handle the logistics, collecting decommissioned equipment from your facility with secure, compliant transportation.

**Data Destruction**

Sensitive data is permanently destroyed using advanced shredding and wiping methods, with full documentation provided.

**Sorting & Processing**

Dismantled devices and materials like metals and plastics are separated for responsible recycling or repurposing with detailed audit reporting.

**Sustainable Recycling**

Recovered materials are reintegrated into manufacturing, reducing landfill waste and supporting a circular economy.
